

CONSTRUCTION LEADERS

INVITATION TO BID

Project: **Sound Transit – D to M Streets Track and Signal Project
Tacoma, WA**

Bid Date: **June 17, 2010 @ 2:00 PM**

PCL is requesting scope of work by Monday, June 14, 2010 at 4:00 P.M. for this project.

Please note: PCL is signatory to trade unions for work involving carpenters, laborers, operators, and cement masons.

Description of Work: This work includes removal of existing track and signals, removal of existing grade crossing warning devices, foundations, removal of existing structures and retaining walls, remediation of contaminated soils and UST's, and excavation and offsite disposal of contaminated soils. Railroad track and signal work includes installation of sub-ballast, ballast, new track, re-setting existing track, installation of track drainage, grade crossings and crossing warnings and installation of railroad signal system infrastructure and interconnection of the Tacoma to Lakewood segment. The work also includes earthwork embankment and roadway excavation, concrete and asphalt road construction, sidewalks, curb and gutter, and driveways, site grading, signing, landscaping and irrigation. Utility work includes removal of existing and installation of new utility facilities for storm drainage, sanitary sewers, telecommunication, electrical power, and water utility construction, relocation of service laterals and connections, traffic signals, and street lighting. Railroad grade-separated crossing structures include a steel girder bridge, a pre-stressed concrete girder bridge and construction of soil nails, soldier pile and cast-in-place concrete retaining walls. Finish work at the South Tacoma Station includes landscaping and installation of owner furnished site furnishings. Wetland mitigation at McKinley Park includes wetland construction and enhancement of existing wetlands.

We are requesting bids from subcontractors and suppliers, including Minority, Women, Disadvantaged and Disabled Veteran owned businesses for the following: Shoring engineers, traffic control, surveying, trucking and hauling, building demolition and hazardous building material abatement, concrete and asphalt sawing, dewatering, shoring, excavation, fill material, subgrade and roadbed, erosion and sediment control, driven pile-steel, utility services/water/sanitary, inlets and manholes, asphalt/concrete pavement, striping/pavement marking, fencing, formwork supplier, reinforcing steel-supplier/installer, concrete supplier, concrete pumping, precast structural concrete, metal materials, & methods, structural steel/erectors, handrails and railings, formed metal fabrications, expansion joint assemblies, discs bearings, Neoprene pads, lumber and building material supplier, traffic coatings, coatings for steel/concrete/masonry, signage, pumps, water treatment & waste water, ductile iron pipe, utility relocation, electrical, roadway lighting, signalization, temporary & permanent signage, curb/gutter/sidewalks, concrete barriers, approach slabs, landscaping and planting, and removal of asbestos material.

Documents are available at Sound Transit website: www.soundtransit.ebidsystems.com. These documents are also available at PCL's office in Bellevue., WA.
